

## Innerspace Electronics is Proud to Receive Three Electronic Lifestyles® Designer Awards from International Trade Association

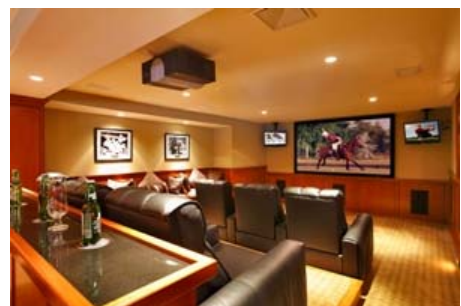

During EXPO 2008, the Custom Electronic Design and Installation Association (CEDIA) announced member companies that have been recognized for their work in design and installation. These awards, which are considered the most prestigious in the \$6 billion industry, are presented annually in recognition of member companies that exemplify outstanding integration of systems and meet their clients' home technology needs. Two panels consisting of members from the American Institute of Architects (AIA), American Society of Interior Designers (ASID), and CEDIA, evaluated the winning entries and scored them on technical merit and design/aesthetics.

**Integrated Home \$150,000 - \$200,000  
Bronze Technical Design**

**Integrated Home \$230,000 - \$290,000  
Silver Technical Design**

**Best Technical Media Room  
Bronze Technical Design**

Innerspace Electronics Inc. would like to thank our staff for their dedication and hard work. Thank you to our clients who were so very kind to open up their homes and allow us to photograph and submit their beautiful houses. Also, thank you to the architects, builders, and designers who allowed us to take pictures of their projects.

IEI has been designing and installing home theater, multi-room audio/video, lighting control, home automation, automated window treatments, acoustical design, soundproofing, telephone/ intercom systems, computer networks and boardrooms for high-end clients since 1988. The company is manufacture-certified to sell, program and service all of its products. IEI combines its expertise and superior service with high-quality products to provide high-tech, sophisticated systems that are easy for consumers to use and enjoy.
